EDITORIAL

c/o M. Texler
 Aquinas College
 1 Palmer Place
 North Adelaide, 5006

Well, I'm back! Thank you for all those who have be giving me feedback about the last newsletter. Your criticism is welcome, because you have to read this. Any correspondence to the pigeon hole in the Jerry Portus Room or the above address. Thank you again for those who helped me put this newsletter together.

The club is sad to hear that three of our instructors will be having to leave the club due to work commitments. So best of luck, on behalf of myself (and the rest of the club) with whatever you do: Mark, Dick and Andrew. We hope to see you soon back at A.U.G.C. and hear about your adventures and escapades.

David Teagle is acting as temporary President.

Remember folks, that the paddock is ploughed, wet and slippery..... More on that later. This edition will also include an address list with a surprise centre section! Plus a little bit more!

So straight into the news.....

Ed.(phone 267 4454)

IMPORTANT BITS:
 (More bits in the centre page!)

The PHCEBUS needs its FORM 2, this will be done in the last 1/2 of June.

We need your help!

The BOCIAN will need fabricing and work done to restore it to its glory.

We need your help!

The Bergle (BERGFALKE IV) is due for its form 2 in October.

We need your help!

If you know how to use tools, or would like to learn how:

Contact Cathy 295 6786 or Martyn 356 6946

If you can help

REALLY IMPORTANT NEWS!

**ON WEDNESDAY 6th of JULY IS AN
 EXTRAORDINARY GENERAL MEETING AT 7.30PM
 in the JERRY PORTUS ROOM, be there to
 make sure your vote counts!**

Social members are denoted by a '*' after the surname.

Only full members are charged members' rates for aircraft and launch fees.

32

WHERE ARE YOU?

WE NEED YOUR SUPPORT!

A CLUB IS A STRONG AS ITS MEMBERS' SUPPORT. SO IF YOU ARE NEW TO THE CLUB AND HAVEN'T COME UP TO THE FIELD, PLEASE CONSIDER COMING UP AND SEEING WHAT GLIDING IS ALL ABOUT!
YOU WILL NEVER LEARN HOW TO FLY BY STAYING AT HOME!

FOR THE NOT SO NEW MEMBERS....

✈ **The Phoebus is back!** ✈

IMPORTANT NEWS!

The club contact person is now:

MARTIN WHITE

PHONE: (08) 337 5108

Ring Martin on Thursday nights between 7.30 p.m. and 10 p.m. to tell him if you want to fly on the weekend.

NEW FEES:

MEMBERS
\$ 2.00
\$ 0.15
\$ 0.20

NON MEMBERS
\$ 3.00
\$ 0.20
\$ 0.25

Launch
Twin Seaters
Single Seaters

This increase is due to increased insurance payments on aircraft.
Freteth not, this has been the first flying fee increase in 2 years!

**There is a \$2 STATEMENT FEE enforced. IF YOUR ACCOUNT is still \$20 DOLLARS IN THE RED after being given a written and/or verbal warning from the treasurer!
Or Dennis's boot will show you that it is possible to become airborne without a cable!**

Left and launch fees.

Redmond's Little Bill:

Welcome to all trainees, hope to see more of you so our Instructors' lives have meaning!

Now it is the time of foul weather (This must mean that it is ridge season!)

Be careful of low cloud: Winch drivers, if you see that the aircraft is going into cloud, cut the winch power immediately! Pilots flying around: you too watch out on launch that you don't go into cloud!

Be careful in strong wind conditions, always have people looking after aircraft, with the aircraft side on to the wind and the with the into wind wing on the ground to prevent a blow over.

Rain and gliders do not mix! If the weather looks bad for the day, bring up a raincoat so you don't get soaked if it does rain. Nothing is achieved by sitting in cars!

If a glider gets wet, race to get it dry immediately, put it in the hangar if necessary. Gliders don't dry by themselves or by being left out in the rain.

With rain and ploughed field comes mud: after the day's flying clean out the wheel wells of the aircraft as well as the aircraft (inside and out!)

Do not drive off the strips, (Winch included!) unless in tracked areas by the launch points: **YOU WILL GET BOGGED!**

Be careful driving the winch on the slippery strip; it drives well at the best of times let alone when the runway is slippery.

Now that the field is ploughed, the only places we can land, comfortably, are the runways. Keep the strip clear of obstacles at all times. At the launch point keep cars, base set, people off of the edge of the strip. The only time gliders should be on the strip is when they are being towed to the launch point, taking off or landing. If one aircraft is landing and other craft are on circuit, push the first aircraft on the ground off the side of the strip (tail first) to have a clear runway for following aircraft. If you are driving the winch and have to stop, please park off to the side.

At all times **LOOK OUT FOR AIRCRAFT!** and **KEEP THE RUNWAY CLEAR WHENEVER POSSIBLE!**

August general Meeting
(With Martin Simons talking about vintage aircraft.)

July/August (?)
Wed, 3rd August

Comedy Relief ----

Well it looks like that three of our instructors may be leaving us to go into the big wide world. They will be missed. (And on your return, guess who could give you guys a check flight?)

Dick Temple the largest gnome of Form 2 that the club has seen for awhile. The guy with the fastest tool (some people have told me that he has a box of 'em.) in the club.

Why is dear ol' Mark Rafferty going to the U.S.? Is it for the sake of his car, the Green falcon? Is mark going to meet its maker? We will miss his sounds of silence, and his way with words.

And Andrew McGrath, looking like Snoopy with his scarf. We will miss his Whoopee, just after "All out!"

Teagle Contributes:

Our Andrew is departing,
Off to the U.S.
Let's hope he doesn't turn it,
Into too much of a mess.

We hope that he will come back,
(But not too bloody soon.)
Because we'll all be safer,
Without the little hoon.

No more upon the ridge,
Will the gliders be so stressed,
By the little maniac,
As he tries hard to impress.

But we all will miss him,
And his sorry tales,
Or in his drunken stupors,
When he goes off the rails!
Good Luck

See you at Lochiel!
(Sooner or Later!)
May your string be straight!
