

# Uni Gliding

Volume 18, Issue 4

July 1993

An Official publication of The Adelaide University Gliding Club Inc.

## A Flying Camp:

A midweek flying camp will be held over the University break from **July 19th** through to **July 22nd**. This camp will be a great time to get several days flying and to keep the campfire burning (port optional). To find out about/help with transportation call **Stephen** on **352 5137** Thursday evening.

## The Meetings:

The club's usual meetings arrangements are a little different due to the above flying camp and University holidays. The **Executive** meeting will be held on **Wednesday 14th July** at Stephen Were's residence (148 Sheriff Court Underdale) at 7:30pm. There will be two closely spaced **General meetings** in the Jerry Portus Room on Cross Country Flying Parts 1 & 2. These will be on the **28th July** and the **4th August**.

## Editorial

It only just made it but here is the July issue of Uni Gliding. Included in this issue is a club membership address and phone list, sorry that the writing is so small but there are an awful lot of us. For all of those who find it too hard to keep up with their **account details** they are now printed out on the mailing labels. It is easy to work out how you stand, if the number on the label is negative you OWE. I don't know exactly how up to date the details are however the labels were run off on the 7th July and should reasonably represent your standing as of that time.

Martyn Roberts, Editor.

## THE PRESIDENTS REPORT

Welcome to the all\_new comittee for 1993. Some people at the Annual General Meeting were foolish enough to believe that I would make a good president. He\_he\_he think again! The Adelaide University Gliding Club is now the first civilian gliding club with a *MILITARY DICTATORSHIP!*

Thanks to the 1992 committee members who put in a lot of effort throughout last year; Gary Hill as president, Andrew Huggins as secretary and Shane Spence as fifth member. The rest have been recycled (Yes, even committees can be environmentally friendly!) in one form or another. Meanwhile congratulations go to Sylvan Fennel for converting to the Super Arrow and Allan Wallace for his Solo. People have probably been wondering where the Prez's reports have gotten to. The truth is that they have been written but never printed (And then severly trimmed -Ed.) due to a variety of reasons. These reasons include a change of editorship and myself valiantly defending the country in Darwin on Exercise Kakadu.

Some time a go a senior member of the club explained to me the theory behind the **Total Gliding Experience**. It goes something like this. At some ciubs you can hire an aircraft, drive to the launch point, get in, fly, get out and drive home. At Lochiel you get to do so much more including driving the winch, handling aircraft, and running operations for less money. We even let you work on the aircraft at our shed at West Beach for free. The moral to this theory is that if you do not participate in all the activities in the Total Gliding Experience you are not getting the most value out of your money or your day. At the end of the days flying, you should be able to say "I helped 15 other people fly today, and they all helped me to fly!"

Anthony Smith, (Sieg Heil!)
